

2020-2021

DEANS' HONOR SCHOLARSHIP

To give further evidence of your depth of thought, analytical skills, imagination, and creativity, use the box below to explore an idea or academic area of interest, and accompany this with a 250- to 500-word written commentary. While your project should reveal something you are passionate about, you should not be the project's main focus or subject.

This project is a separate requirement from the application-for-admission essay. Please consider submitting links to video recordings or photography instead of hard copies. If you are unable to send the completed application and project electronically, please limit the size of your scholarship project to that of an 8-1/2" x 11" two-dimensional portfolio.

Please note: We provide this document so that you may prepare your application in advance. Once available, the Deans' Honor Scholarship may only be submitted online via your Application Status Portal at apply.tulane.edu/status.
